Statement of Kennel Policies

1. Vaccines

In order to protect the health of your pet, this facility requires documentation showing that all boarding dogs have current Rabies, DAPP, *Bordetella* vaccines and a negative fecal within the last year. Cats must have current Rabies and FVRCP vaccines, a negative fecal within the last year, and must have tested negative for FeLV/FIV infectious diseases. If any of your pets' vaccinations are past due, they must be inoculated before boarding. Vaccines that must be administered at this facility or by a licensed veterinarian working with this facility will be added to your bill. Pets that are so young that they have not completed their entire series of vaccinations may not yet be protected and, thus, owners accept any risks of infection. I understand the increased risk for my pet if they are overdue on vaccinations.

2. Medications

If your pet will be receiving medication during his or her stay, it must be in the original veterinary-labeled container with instructions for administration and your veterinarian's phone number.
